INTEGRATED DENTAL IMAGING

What Does Integrated Dental Imaging mean to you?

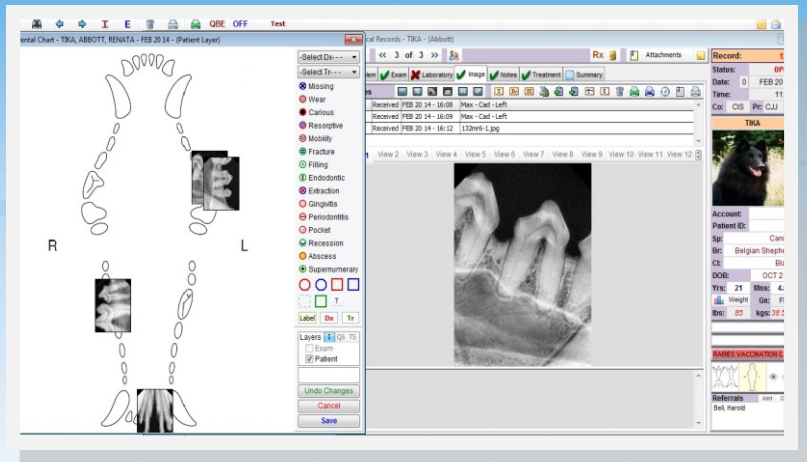

For ClienTrax customers, it means adding Dental radiographs directly into the dental chart/medical record.

Increase Revenue Through Better Medicine

Storing digital x-rays outside of your medical record is now a thing of the past. With the ClienTrax #2 DR dental sensor, x-rays can be taken directly into the ClienTrax dental chart / medical record.

Performing just 5 dental procedures a week with x-rays will create a new revenue stream that will cover the cost of the x-ray equipment in less than 12 months. Plus, you will bring a new standard of care to your business.

With ClienTrax Integrated Digital Solutions, it is easier than ever to capitalize on your existing business. Let us show you how to drive these opportunities to your door!
